On the occasion of a visit
of a business delegation from Lebanon

NUMOV is organizing a Business Round Table LEBANON on the occasion of the visit of a business delegation from Lebanon to discuss the chances and possibilities of German-Lebanese economic cooperation.

After the elections in Lebanon in June 2009 the circumstances for tourism have improved and potentials are rising since Lebanon has well developed infrastructure and highly educated workforce. A USD 7.5 billion pledge by international donors granted in January 2007 during the Paris III conference will promote further growth and development in the region.

The meeting will inform the participants on the market potential and business opportunities in Lebanon.

The Business Round Table LEBANON is for NUMOV-Members free of charge and will be in English.
